Maria Perifanou is an Italian language teacher for the last ten years and a researcher in the field of Applied Linguistics since 2002. She holds a bachelor on Italian Philology and Literature from the Aristotle University of Thessaloniki, Faculty of Arts, Department of Italian Language and Literature (1994-1999) and a Master diploma in "Teaching and Promoting the Italian Language and Culture at Foreigners" with a specialization in Language Technology from the University "Ca'Foscari" of Venice (Department of Sciences of Linguistics, 2001-2003). She also has a Certificate of Specialization in Computer Assisted Language Learning (CALL) from the University of Macedonia (2003-2004). Currently, she is concluding her PhD dissertation in the field of Applied Linguistics at the Department of Italian Studies at the Faculty of Liberal Arts of the "National Kapodistrian University of Athens" after five years of research on 'Web 2.0 scenarios in Foreign Language Education' (2004-2009). Regarding her current work, she collaborates as a researcher with the European Research Institution "Pontydysgu"- Bridge to Learning, Wales, UK and as a teacher and elearning professional with the National Institute of Continuing Education for Adults (IDEKE) of the Greek Ministry of Education (2007-2009), the European Institute of Vocational Training 'AKMI' (2007-2009) and the Global Education Network in Languages and Informatics "AXON" (2005-2009).

Maria Perifanou works also as an e-learning trainer to language teachers. So far she has participated in several European research summer/winter schools, workshops, conferences and she has published articles related to her research. She is also a member of different European research networks such as the TENCompetence Network and the Network of European Technology of Enhanced Learning.
