Dr. Kristi Jauregi is lecturer and researcher in Applied Linguistics at the Department of Modern Languages of Utrecht University (The Netherlands). Her fields of expertise include foreign language acquisition and teacher training, computer mediated communication, task-based language teaching, and intercultural pragmatics. She has participated in several ICT projects. Between 2009 and 2010 she is coordinating the European project NIFLAR (Networked Interaction in Foreign Language Acquisition and Research: www.niflar.eu). She has presented experiences and research results on the implementation of videocommunication and virtual worlds in foreign language teaching processes in national and international congresses (ASELE, Educa Berlin, Call Antwerp, Colloquium Neerlandicum, EPAL, Diverse 2009, Congress S-ICT) and has published on the issue.
