Walter Zeller has been a language teacher at HBLVA für chemische Industrie (<http://htl17.at/>) for many years and is running a small company dealing with EU-projects, translations and educational questions.

Walter Zeller graduated in English and in History from the University of Vienna in 1979. He started working as a teacher in the same year, but continued to work for cultural events and to write for several newspapers. European Cultural Capitals, culinary delights and crossword puzzles became central themes of his work.

When Austria became a member of the EU, projects were already organised to further the mobility in education. This work has continued ever since.
