Dr. Mercedes Jaime-Sisó is a Senior Lecturer in English for Specific Purposes at the Faculty of Veterinary Medicine in the University of Zaragoza (Spain), where she has taught Biomedical English since 1988. In the last two decades, she has also been involved in international relations management as Director of International Mobility and Vice-rector for International Relations in her institution. She has been a member of the LICOM (Languages for International Communication) Board of the European Association for International Education and organized and participated in numerous international conferences related to internationalization of Higher Education. She permanently collaborates with different European Quality Assessment Agencies and was recently appointed as member of the Erasmus Mundus Board by the European Commission.

Mercedes Jaime is member of the English for Academic and Professional Purposes Research Group (University of Zaragoza), whose latest funded project involves the development of a web-based tool (<http://www.inglescomercial.net>) to assist professionals of Spanish SMEs with their communication in international trade. She is also taking part in two European Commission funded projects: *Decipher*, designed to help companies gain an improved understanding of the business culture of the target export markets, and *Building Bridges between EQF and EHEA* with the overall objective of supporting the implementation and development of EQF by developing and correlating national and sectoral qualifications frameworks and systems.

Her current research focuses on the evolution of scientific discourse structure in online publications and the integration of ITC and language learning. She is co-editor of the book *Teaching Academic and Professional English Online* (Bern: Peter Lang, 2009).
