

Leonardo Paterna

Administrative Expert

Leonardo graduated in 1998 in "Economics" - business address – at the University of Florence.

From 1990 to 2009, Leonardo worked in his family' business. The tasks carried out within the company were as follows: marketing management of both Italian and foreign customers, suppliers and logistics management, general accounting and management control.

Since 2009, Leonardo works at Pixel as administrative expert in the accounting department.

The tasks Leonardo carries out at Pixel are related to the management of administration issues, including: general accounting, management control and reporting.

Leonardo is also in charge of the administrative aspects of the European projects, including internal reporting, and of the international conferences organized by Pixel.
